

# 2016 Canadian Geotechnical Society Awards and Honours

(updated Nov 17, 2016)

**R.F. Legget Award**     Richard J. Bathurst

**R.M. Quigley Award**     Winner Tied  
Thomas Mimouni, Lyesse Laloui, "Behaviour of a group of energy piles"  
R. Kerry Rowe, A.M.R. Ewais, "Ageing of exposed geomembranes at locations with different climatological conditions"

**Honourable Mention:** R.W.I. Brachman, A. Rentz, R.K. Rowe, and W.A. Take, "Classification and quantification of downslope erosion from a geosynthetic clay liner (GCL) when covered only by a black geomembrane"

<b>G. Geoffrey Meyerhof Award</b>	<u>Wayne Clifton</u>	Clifton Associates Ltd.
<b>Thomas Roy Award</b>	<u>Matthias Jakob</u>	BGC Engineering
<b>Roger J. E. Brown Award</b>	<u>Guy Doré</u>	Université Laval
<b>John A. Franklin Award</b>	<b>No award 2016</b>	
<b>Geoenvironmental Award (UQAT)</b>	<u>Bruno Bussière</u>	Université du Québec en Abitibi-Témiscamingue
<b>Geosynthetics Award</b>	<u>M. Hesham El Naggar</u>	University of Western Ontario
<b>Robert N. Farvolden Award (Joint award with IAH-CNC)</b>	<u>René Lefebvre</u>	Le Centre Eau, Terre et Environnement
<b>Robert Schuster Medal</b>	<u>Jean Hutchinson</u>	Queen's University

## Graduate Student Paper Award

**1<sup>st</sup> Prize**     Muhammad Irfan "Investigation of frequency effects in bender-element testing", Civil Engineering, University of Waterloo, Drs. G. Cascante & D. Basu

**2<sup>nd</sup> Prize**     Megan van Veen "Building a Rockfall Database Using Remote Sensing", Geological Sciences and Geological Engineering, Queen's University, Dr. Jean Hutchinson

## Undergraduate Student Report (Individual)

**1<sup>st</sup> Prize**     Samuel Kaluzny, "Tensile and pullout properties of geotextiles with and without wicking function", Civil and Environmental Engineering, University of Manitoba, Dr. Marolo Alfaro

**2<sup>nd</sup> Prize**     **No award 2016**

## Undergraduate Student Report (Group)

**1<sup>st</sup> Prize**     Roxanne Hasiar, Michael Kraitman, Jacob Nicklen & Jacob Nikl, "Long Lake Tunnel and Surface Cut Pre-Feasibility Design and Comparison (UBC)", Geological Engineering, University of British Columbia (Vancouver), Susan W. Hollingshead

**2<sup>nd</sup> Prize**     Brandon Anderson, Jesse Olafson, Patrick Palmer, Colleen Small, "Slope Stability Assessment: Highway 23 Twinning Development (Saskatchewan)", Civil and Geological Engineering, University of Saskatchewan, Dr. Douglas Milne

## Canadian Foundation for Geotechnique Michael Bozozuk National Graduate Scholarship

Tom Lardner, Western University

## A.G. Stermac Awards

Jean Côté, Professeur, Université Laval  
Michel Timmons, (deceased)

**CGS R.M. Hardy Keynote Address**     Harvey McLeod, Klohn Crippen Berger

**Canadian Geotechnical Colloquium**     Jasmin Raymond, Institut national de la recherche scientifique, Centre Eau Terre Environnement (INRS-ETE)

**Cross Canada Lecture Tours**     Dr. Antonio Gens (Spring 2016), Ross Boulanger (Fall 2016)

## AWARDS FROM ENGINEERING INSTITUTE OF CANADA (EIC)

*Fellowship of the Institute (FEIC)*     Gordon Fenton  
*Fellowship of the Institute (FEIC)*     David Woeller

## La Société Canadienne de Géotechnique – Prix et Distinctions 2016

**Médaille R.F. Legget** Richard J. Bathurst

**Prix R.M. Quigley** Winner Tied  
Thomas Mimouni, Lyesse Laloui, “Behaviour of a group of energy piles”  
R. Kerry Rowe, A.M.R. Ewais, “Ageing of exposed geomembranes at locations with different climatological conditions”

**Mention honorable** R.W.I. Brachman, A. Rentz, R.K. Rowe, W.A. Take, “Classification and quantification of downslope erosion from a geosynthetic clay liner (GCL) when covered only by a black geomembrane”

<b>Prix G. Geoffrey Meyerhof</b>	<u>Wayne Clifton</u>	Clifton Associates Ltd.
<b>Prix Thomas Roy</b>	<u>Matthias Jakob</u>	BGC Engineering
<b>Prix Roger J.E. Brown</b>	<u>Guy Doré</u>	Université Laval
<b>Prix John A. Franklin</b>	<b>N'a pas été décerné en 2016</b>	
<b>Prix du géoenvironnement (UQAT)</b>	<u>Bruno Bussière</u>	Université du Québec en Abitibi-Témiscamingue
<b>Prix des géosynthétiques</b>	<u>M. Hesham El Naggar</u>	University of Western Ontario
<b>Prix Robert N. Farvolden (Prix conjoint avec AIH-SNC)</b>	<u>René Lefebvre</u>	Le Centre Eau, Terre et Environnement
<b>Médaille Robert Schuster</b>	<u>Jean Hutchinson</u>	Queen's University

### ***Prix de la présentation des étudiants aux cycles supérieurs***

**1<sup>er</sup> prix** Muhammad Irfan “Investigation of frequency effects in bender-element testing”, Civil Engineering, University of Waterloo, Drs. G. Cascante & D. Basu

**2<sup>e</sup> prix** Megan van Veen “Building a Rockfall Database Using Remote Sensing”, Geological Sciences and Geological Engineering, Queen's University, Dr. Jean Hutchinson

### **Prix du rapport des étudiants du premier cycle (individuel)**

**1<sup>er</sup> prix** Samuel Kaluzny, “Tensile and pullout properties of geotextiles with and without wicking function”, Civil and Environmental Engineering, University of Manitoba, Dr. Marolo Alfaro

**2<sup>e</sup> prix** **N'a pas été décerné en 2016**

### **Prix du rapport des étudiants du premier cycle (Groupe)**

**1<sup>er</sup> prix** Roxanne Hasiar, Michael Kraitman, Jacob Nicklen, Jacob Nikl, “Long Lake Tunnel and Surface Cut Pre-Feasibility Design and Comparison (UBC)”, Geological Engineering, University of British Columbia (Vancouver), Susan W. Hollingshead
