

# Geohazard Connections 2021

Graduate Student Research Series – Free to attend

## Dates & Time (3 days)

May 5, May 26, and June 16, 2021      08:00 – 09:20 Vancouver Time

6 to 8 student speakers from across Canada/world for each session (75-minute-long Zoom session)

5 to 8 min. live Zoom presentation by each student plus additional time for questions and discussion

## Goals

Showcase a diversity of geohazards research

Promote student-to-student connections and student-to-practitioner connections across Canada

Encourage presentations from graduate students in the early stages of their research

## Research Series Hosts for Summer 2021

Dr. Dwayne Tannant (Professor) and Kaushal Raj Gnyawali (PhD student), UBC Okanagan

## Students Wishing to Present

Graduate students wishing to make a presentation must provide information **BEFORE April 15** on a Google Form found at:

<https://forms.gle/4Qcy3tdip1faH2Qx5>

Presentations will be selected and assigned to one of the three presentation dates by **April 30**. All students submitting a completed Google Form will be informed at this time. Even if you choose not to present, please join the presentations and discussions at the links below.
